BOILED EGG CUBES	180

STORY BEHIND THE CAFE

While we were building our future in the quiet, beautiful hills of Manali, life had a surprise waiting for us... and it came in the form of a dog who changed everything.

The day he showed up, something just felt different. And strangely enough, that very same day, we closed one of our biggest deals. From that moment on, he became more than just a coincidence, he became our luck, our constant.

Since then, he's been there through it all. Every step, every little win, every big moment... it somehow all felt connected to him.

He isn't just a part of our life. In so many ways, he *is* life. The kind of love and loyalty he gives is something you can't explain unless you feel it. For him, his world begins and ends with his family.

Gabbar isn't just a dog to us, he's the soul of this entire journey.

And that's exactly why Gabbu's Café exists. It's not just a café... it's a little piece of his love, his luck, and everything he brought into our lives ♥

Thank you, Gabbu... for being our quiet miracle, our constant source of love, and the kind of luck that feels like home. ♥
